## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 79-84 and 86-90 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claim 79, with the allowable features being: a reverse charge polarity with respect to a charge polarity of the particles having the surface, on which no macroscopic concavo-convex portion exists, and, the fine particles do not change a polarity of the particles having the surface, on which no macroscopic concavo-convex portion exists, after being adhered (claim 79). Therefore, claims 79-84 and 86-90 are allowed.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
